

Vacuum filters | Universal filters for large volume flows

Pump filters / pre-filters with paper cartridge

Pump filters / pre-filters with paper cartridge

Suitable for dry areas

Product notes

- > For use directly on the suction opening of vacuum pumps
- > To protect vacuum pumps from damage or excessive wear
- > High filtration efficiency due to large filter surface
- > Robust metallic housing for long service life
- > Quick fastener for prompt checking or replacement of the filter cartridge
- > The number of fast-closing is dependent on the filter size (2-4)
