

# Vacuum filters | Universal filters for large volume flows

Pump filters / pre-filters with paper cartridge

## Pump filters / pre-filters with paper cartridge

Suitable for dry areas

### Product notes

- > For use directly on the suction opening of vacuum pumps
- > To protect vacuum pumps from damage or excessive wear
- > High filtration efficiency due to large filter surface
- > Robust metallic housing for long service life
- > Quick fastener for prompt checking or replacement of the filter cartridge
- > The number of fast-closing is dependent on the filter size (2-4)

### Technical data

Item no.	Max. volume flow [m <sup>3</sup> /h]	Grade of filtration [µm]	Weight [kg]	Suitable spare cartridges
