

Series 100 - sprue grippers without sensor

Product notes

- > Clamping diameter 10 mm
- > GR04.102A: Double-acting to enable short duty cycles
- > GR04.100, GR04.102A: Jaws made of anodised aluminium alloy
- > GR04.105: Sawtooth jaws made of zinc plated steel for higher grip force
- > GR04.106: Jaws with interchangeable HNBR pads for gentle gripping
- > Body made of anodised aluminium alloy
- > Principle of operation: GR04.100, GR04.105, GR04.106, single-acting; GR04.102A double-acting
Medium: Filtered and oiled / unoled air

Technical data

| Item no. | Max. operating pressure [bar] | Closing force at 6 bar [N] | Weight [g] | Replacement parts |
|----------|-------------------------------|----------------------------|------------|-------------------|
| GR04.105 | 8 | 28 | 79 | -- |

New sprue grippers

- > GR04.105: Sawtooth jaws made of zinc plated steel for higher grip force
