

Grippers | Expansion grippers

ID grippers for diameters 8 to 85 mm

ID grippers for diameters 8 to 85 mm

ID-gripper with silicone bellow

PISTON MOVEMENT ADJUSTABLE TO POSITION OF GRIPPED OBJECT, BELLOW IS NOT INFLATED, NO RISK OF BURSTING

Left: initial position | Right: bellow expanded

Product description

- > Single-acting grippers with high holding force
- > Gripper bellow expanded by pneumatically driven piston, clamps workpiece at its inner surface
- > Ventilation of gripper resets piston and bellow and releases workpiece
- > Piston movement adjustable to position of gripped object
- > Holding force controlled by feed pressure
- > Robust body, made of anodised, high-strength aluminium alloy
- > Elastomer bellows available in EPDM or silicone
- > Easy and non-destructive exchange of bellows

Notes

Downward piston movement (workpiece pushed):

- > Clamp the upper (black) part of gripper body or using optional extension tubes or threaded mounting brackets

Upward piston movement (workpiece drawn):

- > Clamp the bottom (red) part of gripper body
